

# Apple tree

## Lifecycle Wheel

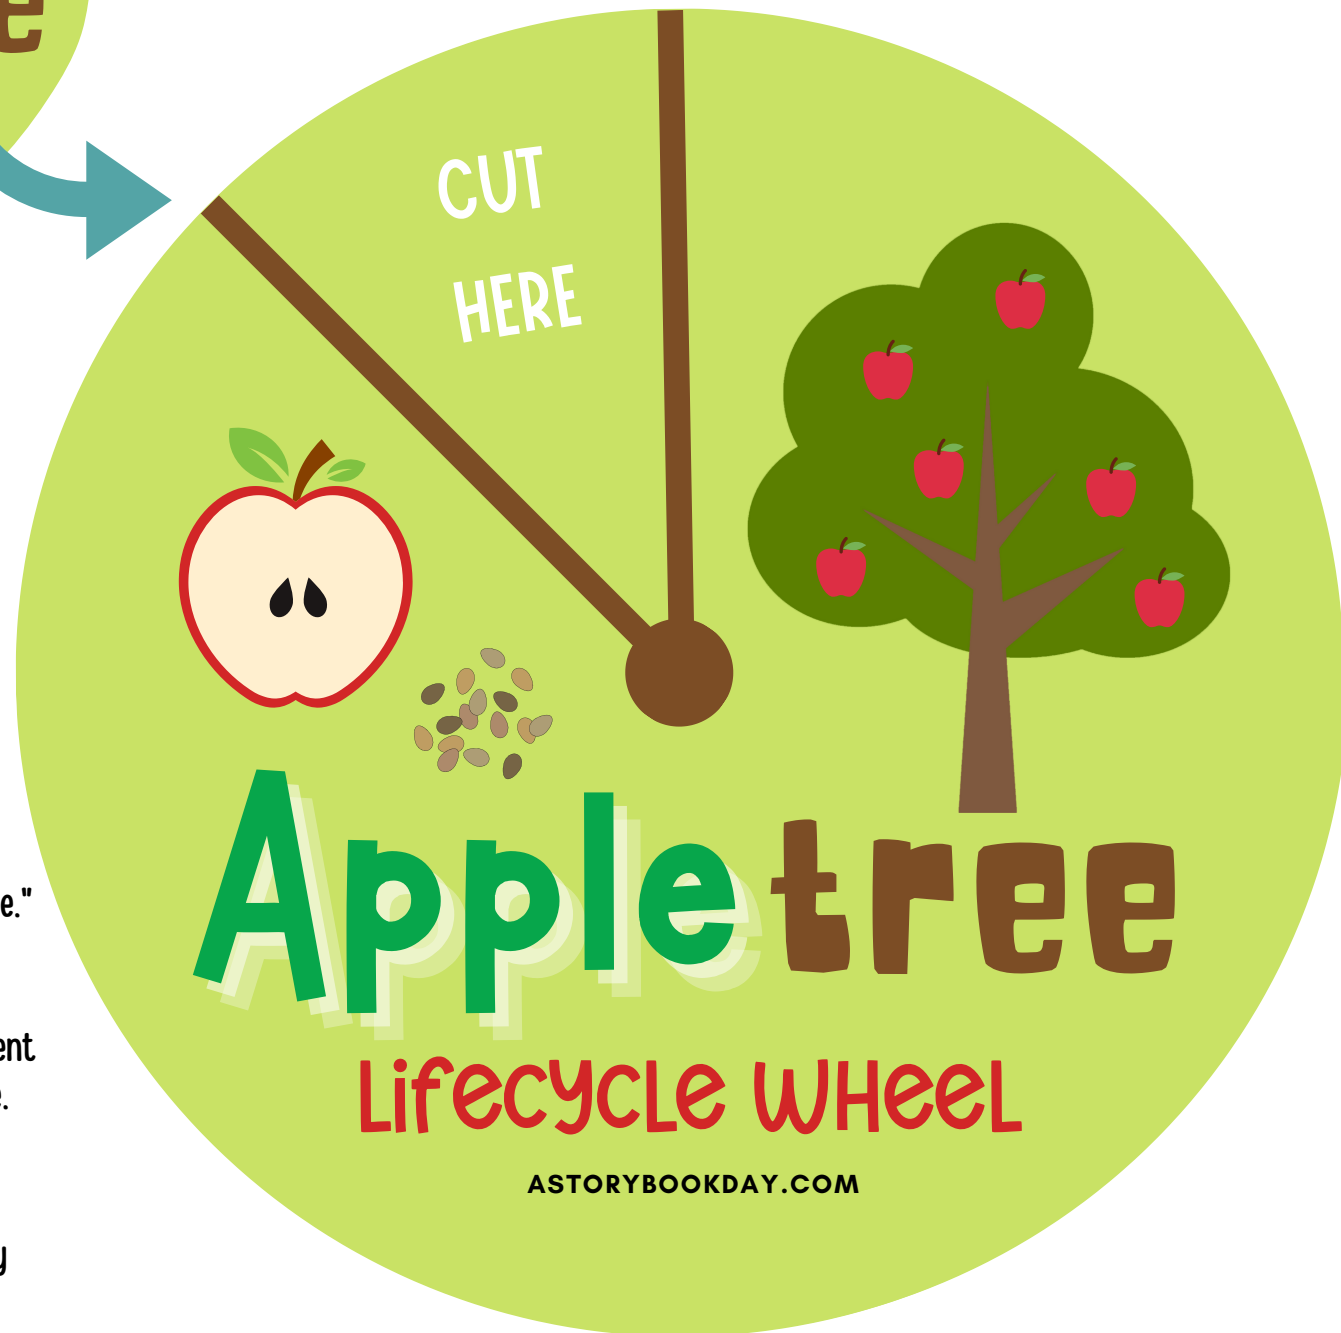

### Materials

Paper or heavy card stock, Scissors,  
Hole punch, and Brass Fastener.  
Optional: Laminator

1. Cut along the outer lines of the circle.
2. Cut out the triangle that says, "cut here."
3. Attach the wheel cover to the spinner with a brass fastener.
4. Move the spinner to identify the different stages of the life cycle of an apple tree.

**Enjoy!**

Note: Can be laminated for extra durability
