

ROBOT DICE GAME

To Play:

Place your nuts & bolts (play pieces) on the "Start" of the board game.

Choose a player to go first.

The player rolls the dice, and moves their piece to the next corresponding picture.

The next player takes a turn.

To win, a player must roll a "Robot Head" picture to move to the final space.

Print out the dice template on cardstock, fold and glue the flaps to the sides.
